EXPERIENCE

2016 - Present **Lead Developer** - GB3

Key Achievements:

- Responsible for the technology strategy and all aspects of the technical delivery including development, testing, deployment and support..
- Created a product portfolio of web applications to be reused for multiple customers.
- Successfully delivered a range of projects of varying scale from a safeguarding application to a major incident response system used in all London local authorities.
- Write technical requirements, designs and project estimates.
- Run workshops and demos with clients to gather ongoing feedback during iterative development cycles.
- Implement solutions using Node.js (v0.12 - v9.x), Express, Angular (js, 4 & 5), Jasmine, MongoDB, SQL databases, HTML5, TypeScript, JavaScript (ES6), Grunt.

2013 - 2016 **Analyst Programmer** - British Gas

Key Achievements:

- Personally responsible for the "Print Centre Gateway", the outbound correspondence processes that reformat, dispatch and report on half a million documents a day.
- Successfully lead and managed an offshore support team and onshore project developers.
- Worked with third party print centres, external test teams and senior leadership teams.
- Responsible for all development, testing, deployment and production support.
- Designed and implemented various improvements to increase productivity and reduce costs including a web based reporting dashboard, self-service tools and automation.
- Utilised a variety of languages on a daily basis including JavaScript, BASH, AWK, Python, HTML and CSS, and used frameworks and libraries where appropriate including JQuery, Flot, and Flask.
- Evaluated a range of new database technologies, which lead to the first implementation of MongoDB at British Gas.
- Part of the DevOps incubator, and leading the Core Systems proof of concept to improve software development methodologies within Core Systems.

2013 – 2013 **Strategy and Architecture** – Centrica Graduate Scheme

Key Achievements:

- Responsible for the successful implementation of the cloud integration strategy.
- Crafted the business case for utilising Windows Azure.
- Collaborated with Fujitsu to deliver a change to PST files to almost 30,000 end users across the Centrica Group following Microsoft best practice guidelines.
- Personally held a vital role in the Social Media strategy and the Yammer roll-out within Centrica Energy.

2012 – 2013 **Core SAP Billing and SAP Development** – Centrica Graduate Scheme

Key Achievements:

- Managed the release notes during go-live of a major multimillion-pound SAP CRM implementation program.
- Responsible for all training and hand over to a new offshore team.
- Developed and crafted a resource management database to track skills and resources.
- Tested code changes for high profile changes including new energy tariffs.
- Automated a range of SAP processes including weekly billing tasks and reports.
- Conducted knowledge share sessions with offshore team members to assist in personal and team development.

2011 – 2012 **Licence Management Graduate** – Centrica Graduate Scheme

- Actively wrote and produced process documents for BAU processes.
- Conducted a gap report of missing entitlement for software purchases.
- Successfully minimised asset compliance risk by over £10million.
- Graduate representative, arranging activities (training and social).

2010 – 2010 **Senior Science Technician** – Bryn Celynnog Comprehensive School

- Responsible for resources, equipment and supplies within the Science Department.
- Purchased stock such as chemicals and equipment.
- Managed and lead another Technician to improve productivity within the department.

2009 – 2009 **Customer Service Representative** – Conduit

- Worked as part of a busy sales team in the large telephone sales department for Sky.
- Provided excellent customer service while dealing with customer enquiries.
- Successfully sold Sky TV, phone and broadband contracts to customers.

2008 – 2009 **Head Coach** – West Wales Kayaking

- Ran all aspects of a kayaking instruction business whilst studying at University.
- Planned and organised training sessions for a variety of clients
- Assessed British Canoe Union awards through the medium of Welsh and English.
- Personally produced risk assessments and implemented Health and Safety guidelines.
